Mr. Meisenzahl: What is the biggest animal you have?

Jessica: Well, the giraffe is the tallest, of course. The \_\_\_\_\_ is the elephant and it's very expensive. It's \_\_\_\_\_ animal we have to adopt.

## ➤ Film part 2 – Snakes....

Fill in the gaps with the correct words or the correct form of comparisons (don't forget 'the' , 'than.../' 'as...as' if you need it)

a) Stop 1: Stop the video and tell us what you know about the snakes now. Then go on.

Judith has got a special snake. She shows us a \_\_\_\_\_. In German it is also called " \_\_\_\_\_ ". It is a \_\_\_\_\_ snake. (big)

There are also Pythons that have a much \_\_\_\_\_ head. (big) Their heads are \_\_\_\_\_ (big) their neck.

The head this snake is \_\_\_\_\_ (small), but the snake can even eat \_\_\_\_\_.

You can see how much a snake can eat, if you look at the \_\_\_\_\_ (thick) part of the snake. It can eat \_\_\_\_\_ (much) that and a bit more.

This snake is a very \_\_\_\_\_ (peaceful) animal. The boa constrictor is \_\_\_\_\_ (peaceful) than other snakes. It is a "constrictor snake" that means "Würgeschlange " in German. It bites it's prey (Beute) and strangles (erwürgen) it at the same time. For humans, poisonous snakes are \_\_\_\_\_, because you can die if the snake bites you. So the boa constrictor is a very \_\_\_\_\_ (dangerous) snake but not \_\_\_\_\_ snake.

Well done! You are a snake expert by now!

b) Stop 2-4: Stop the video and translate the sentence about the snakes.

Fill in the gaps in the sentences. Go on with the video and check what Jessica says!

The boa constrictor is a \_\_\_\_\_ snake. (long)

The python is \_\_\_\_\_ than the boa. (long)

The anaconda is \_\_\_\_\_ snake of all. (long)

The python has got a \_\_\_\_\_ head. (big)

It can eat \_\_\_\_\_ animals. (large)
